## Agenda topics

### 5. B. NEW BUSINESS – GROUND EMERGENCY AMBULANCE SERVICE CONTRACT

DISCUSSION	
<p>Chair Reid asked for any comments. Commissioner Clark noted that her concerns as they relate to response time zones and aggregate response time thresholds in Exhibit F have been addressed. Chief Martinez clarified that the ESA could not compel any of the signatories to the ESA to use a particular medical advisor, and Chair Reid noted that a working group would explore the role of the medical advisor with relation to the ESA and its signatories and would get input from all the county stakeholders before making any changes.</p> <p>The board discussed the role of mutual aid agreements and subcontracts for service, and Chief Martinez noted the City's concern that citizens are being billed by other ambulance services (i.e. Black Forest, Wescott, Falcon), leading to confusion about billing rates. He also noted that mutual aid agreement must be between governmental entities and that AMR, as the ESA's contractor, could not be a party to them. Chair Reid noted that all such agreements are subject to approval by the ESA board, that existing memoranda of understanding (MOUs) will be in place until new ones are signed after January 1, and this subject will be discussed during that time. Ted Sayer of American Medical Response noted that it was important for the Board to provide input as to what should be in the agreements. Chief Martinez emphasized that governments can enter into mutual aid agreements, but the ESA is a separate governmental entity so, while the ESA's agreement for transport is with AMR, any agreement to provide mutual aid is between the governments and does not involve the ESA or its contractor (AMR). Councilwoman Radford recalled that the board had a discussion relating to AMR effectively subcontracting with other entities and that under the ESA's contract with AMR, the board approves those contracts.</p>
